

Call for applications for the academic year 2022 - 2023 opens soon!!!

The MSc "[*Biomedical Engineering and Technology*](#)" is a 1.5 years postgraduate program (90 ECTS) organized in **English** by the Department of Biomedical Engineering of the University of West Attica, Greece.

Target group:

Those holding a Bachelor (B.Sc.) university degree related to engineering, technology, life and health sciences or other relevant to biomedical engineering sciences, who wish for a career change in Biomedical Engineering

Program's goals:

- a/ **intensive introduction** to biomedical engineering
- b/ **problem-solving** skills development
- c/ **active interaction** with the biomedical engineering industry
- d/ **prepare students for PhD studies**

Teaching staff:

- Invited professors from **8 different Universities** in Greece and abroad:
 - University of West Attica, **Greece** (host institution)
 - National and Kapodistrian University of Athens, **Greece**
 - Instituto Politécnico do Porto, **Portugal**
 - Universidad Rey Juan Carlos, **Spain**
 - Georgia Institute of Technology, **USA**
 - University of Plymouth, **UK**
 - Universitatea Politehnica din București, **Romania**
 - Trier University of Applied Sciences, **Germany**
- Invited Researchers from biomedical engineering research facilities
- Invited Biomedical Engineers from the labor market

Application period: **April-May 2022** (Online application process. Dates + details will be announced April 2022. [Subscribe to our newsletter](#) to receive by email the announcement of the call for applications for the academic year 2022-2023)

Studies start: October 2022

Duration: 1.5 years (3 academic semesters), 90 ECTS

Course attendance: full time, compulsory

Teaching language: English

Tuition fees: 1200 €

- Real time online meetings for the presentation of the MSc program to interested candidates will be organized during the call for applications period. [Subscribe to our newsletter](#) to receive by email the exact dates of these meetings.

Please read carefully the following important notices!!!

a/ For applicants holding academic titles awarded by foreign (non-Greek) higher educational institutes, it is mandatory to provide academic recognition of their titles by the [Hellenic National Recognition and Information Center \(NARIC\)](#). This might be a timely process, so interested applicants should start preparing their application to the NARIC foundation as soon as possible!!! For details visit the website of the NARIC foundation ([link](#)). If the process of the academic recognition by the NARIC foundation has not been completed till the deadline of the call for applications, the applicants should submit the proof of their application to the NARIC foundation.

b/ For applicants who are currently undergraduate students expected to complete their studies before the beginning of the MSc Program in October 2022, they may also apply for admission. Applicants belonging to this category should additionally submit with their application a certificate issued by the relevant Secretariat of their Bachelor program with all pending tasks to complete their degree. Successful applicants belonging to this category, should submit their graduation certificate during the student registration period before the beginning of the courses of the MSc Program in October 2022.
