Call for applications for the academic year 2022 - 2023

1. Program at a glance

The MSc “[*Biomedical Engineering and Technology*](#)” is a 1.5 years postgraduate program (90 ECTS) organized in **English** by the Department of Biomedical Engineering of the University of West Attica, Greece.

Target group:

Those holding a Bachelor (B.Sc.) university degree related to engineering, technology, life and health sciences or other relevant to biomedical engineering sciences, who wish for a career change in Biomedical Engineering

Program’s goals:

- a/ **intensive introduction** to biomedical engineering
- b/ **problem-solving** skills development
- c/ **active interaction** with the biomedical engineering industry
- d/ **prepare** students **for PhD studies**

Teaching staff:

- Invited professors from **8 different Universities** in Greece and abroad
- Invited Researchers from biomedical engineering research facilities
- Invited Biomedical Engineers from the labor market

Application period: **15 April- 31 May 2022**

Studies start: October 2022

Duration: 1.5 years (3 academic semesters), 90 ECTS

Course attendance: full time, compulsory

Teaching language: English

Tuition fees: 1200 € (in three instalments as follows: 1st instalment 400 € during the registration period in October 2022, 2nd instalment 400 € till 30/11/2022, 3rd instalment 400 € till 20/12/2022)

2. Online meetings for interested candidates

Online meetings for interested candidates will be organized during the call for applications period the following dates:

- **04/05/2022, 17:00 (Athens time)** (Current time zone offset in Athens: UTC/GMT +3:00 hours), (to participate [click at this link](#) and request to join)
- **13/05/2022, 18:00 (Athens time)** (Current time zone offset in Athens: UTC/GMT +3:00 hours), (to participate [click at this link](#) and request to join)

[Subscribe to our newsletter](#) to receive by email reminders for these meetings.

3. Required documents

1. Undergraduate/bachelor degree certification (**compulsory**)
2. Transcript of records including the list of the courses' grades (**compulsory**)
3. Academic recognition of the Undergraduate/bachelor degree by the Hellenic National Recognition and Information Center ([NARIC/DOATAP](#)) (**compulsory only for holders of non-Greek University degrees**)
If the process of the academic recognition by the NARIC foundation has not been completed till the deadline of the call for applications, the applicants may submit the proof of their application to the NARIC foundation.
4. English language certification, **at least B2 (compulsory)** or application for written and oral English exam (**compulsory**) (*The English language test for applicants that do not hold B2 or higher English language certification will be organized during September 2022. Exact dates will be announced together with the evaluation results*)
5. CV according to the [Europass template](#) (max 3 pages) (**compulsory**)
6. Motivation letter (max 2 pages) (Tell us at least the following: a/ why you would like to study biomedical engineering, b/ what do you expect to achieve after the completion of the program, c/ why did you select our MSc program, d/ why should you be selected for this program) (**compulsory**)
7. Recommendation letters (at least 2) (The recommendation letters should be submitted electronically **by the referral** before the application deadline. You may find the submission link for recommendation letters at the online application submission webpage – see section 5 below) (**compulsory**)
8. Scanned copy of ID (for Greek citizens), passport (for EU and non-EU citizens) (**compulsory**)
9. Face photograph (**compulsory**)
10. Undergraduate/bachelor degree thesis (optional)
11. Related to biomedical engineering research activity (optional)
12. Related to biomedical engineering professional activity (optional)
13. Related to biomedical engineering internship(s) (optional)
14. Other related to biomedical engineering activity (optional)

Please note that documents 1, 2, 3 and 4 should be validated (stamp + signature from the issuing organization) and translated in English or Greek. If the original validated documents are issued in English or Greek, no translation is required.

A scanned copy of documents 1, 2, 3 and 4 is sufficient for the online application. Only successful candidates will be asked to present the original validated and translated (if needed) documents during the student registration period in October 2022.

4. Important information!!

Please read carefully the following important information before submitting your application!!!

a/ For applicants holding academic titles awarded by foreign (non-Greek) higher educational institutes, it is mandatory to provide academic recognition of their titles by the [Hellenic National Recognition and Information Center \(NARIC\)](#). This might be a timely process, so interested applicants should start preparing their application to the NARIC foundation as soon as possible!!! For details visit the website of the NARIC foundation ([link](#)). If the process of the academic recognition by the NARIC foundation has not been completed till the deadline of the call for applications, the applicants should submit the proof of their application to the NARIC foundation.

b/ For applicants who are currently undergraduate students expected to complete their studies before the beginning of the MSc Program in October 2022, they may also apply for admission. Applicants belonging to this category should additionally submit with their application a certificate issued by the relevant Secretariat of their Bachelor program with all pending tasks to complete their degree. Successful applicants belonging to this category, should submit their graduation certificate during the student registration period before the beginning of the courses of the MSc Program in October 2022.

5. Online application submission form

Applications are accepted only during the call for application period from 15 April to 31 May 2022.

Please read carefully the instructions in this document before submitting your application!!!

Successful applications will be considered those that:

a/ have successfully completed the online application form

b/ have successfully uploaded two recommendation/reference letters. Please note that the recommendation/reference letters are submitted online by the referral, not by the applicant!!
